

ROOF TILE GUARD

#GS2

ROOF TILE CLEAR GLAZE COAT

Technical Data & Application Instructions

PRODUCT DESCRIPTION

#GS2 water based clear acrylic glaze coat is a non-yellowing acrylic emulsion sealer designed to seal and protect RTC roof tile coating systems. GS2 appears milky white in the container, will cure to a clear, transparent, sheen finish when properly applied. GS2 will resist stains, UV abrasion and minimize hairline checking, dusting, and spalling. GS2 is intended to seal roof tile surfaces.

BASIC USES

#GS2 will provide excellent protection from oil stains, grease and freeze-thaw problems on RTC roof tile coating system surfaces. GS2 is recommended for use on concrete or clay roof tiles without a glaze coat. GS2 is used in schools, offices, warehouses, commercial buildings, shopping centers and residences. GS2 complies with VOC content limits as required by current Air Pollution Regulation on Architectural Coatings.

INSTALLATION

PREPARATION:

Surface must be dry and free of efflorescence, dirt, soap, oil, wax, grease, coatings, sealers or other bond breaking contaminants.

Application: Stir well before using. #GS2 is recommended to be applied in thin, even applications. Apply with a brush, short nap roller or low-pressure airless sprayer, If puddles occur, brush or roll out. Keep foot traffic off for 4 to 8 hours at 77°F and 50% relative humidity. Apply a job test sample for approval. Clean up immediately with soap and water while still wet. **NOTE:** Lower temperatures and/or higher humidity will increase cure time.

TECHNICAL DATA

1. Type	Acrylic Emulsion Polymer
2. Coverage	200-400 sq. ft. per gallon (depending on surface texture)
3. Recoat	1 to 2 hours at 77°F and 50% relative humidity
4. Cure Time	8 to 12 hours at 77°F and 50% relative humidity
5. Color	(wet) Milky (dry) Clear
6. Solids	25% by weight
7. Flash Point	+200°F
8. Clean up	Soap and Water while wet
9. Packaging	1 gallon, 5 gallon, 55 gallon
